### Ex-Navy Engineer Linked to Spy Ring

Morton Sobell 8th Person  
Accused of Giving Out  
Secrets on Bomb

Washington, Aug. 18 (AP)—The Justice Department today announced the arrest of a former U. S. Navy civilian engineer on charges of giving national defense secrets to Russia.

It said F.B.I. agents took Morton Sobell, 33, New York electrical engineer into custody at Laredo, Tex., this morning.

He is the eighth person arrested in a roundup of Americans accused of channeling atom bomb data and other secret information to a Soviet spy ring.

F.B.I. Director J. Edgar Hoover said that Sobell fled from the United States in June to avoid arrest.

He was arrested at Laredo when deported from Mexico back to this country.

Was at Schenectady  
The Justice Department said plans are to arraign Sobell before a U. S. commissioner at Laredo and seek his removal to New York city.

Sobell was employed on restricted work for the U. S. Navy at the General Electric plant at Schenectady, N. Y., from 1942 to 1947.

He is accused of having colluded with the other Americans previously arrested in obtaining defense secrets during that period.

Since he is charged with espionage conspiracy in wartime, Sobell-like the others similarly

### Defense Council Prepares Plans

#### Will Register Fire Aides at Central Station; Must Be 21 to 55

"Civilian defense is a grim necessity," Sherwood E. Davis, local civil defense head, told members of his council at a meeting at the mayor's office Thursday afternoon.

Kingston, like the rest of the country, must "hope for the best, but be prepared for the worst," Davis said.

During the meeting, plans were made for the registration of auxiliary police and firemen.

The registration of auxiliary firemen will begin at the Central Fire Station on Saturday, Fire Chief Joseph L. Murphy, deputy defense director, announced following the meeting.

Men between the ages of 18 and 55 years who are physically fit are eligible to register in fire department auxiliary. Police registration will be held at the police

### Upside-Down Man to Take Off His Glasses, End Test

New York, Aug. 18 (AP)—For 30 days, Fred Snyder has been looking at the world upside down and backward.

Tonight Fred will take off his special, binocular-like glasses. The floor will shoot up to the ceiling. The ceiling will come down to the floor. Once again Fred will see the world as other people see it. And—

"I'm not sure I'll recognize it," Fred said with an uncertain laugh. "I've got pretty used to leading this upside-down existence. Things look right to me when they're upside down, and backward to everybody else."

Fred is a friendly, 23-year-old

graduate student at the University of Wichita. He undertook the upside-down experiment as part of his work in psychology. His teacher, Dr. N. H. Pronko, who came along to New York, thinks it's a pretty valuable piece of work.

"We're not trying to prove anything," Pronko said. "We're trying to learn something about how people see. Apparently it's something we have to learn. In some ways Fred already has learned to see as well as, or better than, he did with 'normal' vision."

But it wasn't easy.

First Fred put on his strange projecting glasses. A light metal headgear supports them and

### Destruction of Bases Considered Best Way to Stall Off Raids

Washington, Aug. 18 (AP)—An enemy probably could make an aerial Pearl Harbor strike at almost any place in the United States today and get some bombs down on the target.

It is not considered within the realm of possibility that the present "sparsely spotted" radar system—even though on a round-the-clock operating basis—would detect all approaching bombers or that existing fighter forces would destroy every one of them.

Competent military sources doubt if more than a quarter of an attacking bomber force coming in over the Polar regions could be knocked down before it crossed the northern border of the United States.

They point out that in World War 2, in areas where there was a high concentration of fighter defense and elaborate radar warning system, destruction of 10 per cent of an attacking force was considered excellent.

Air force strategists hold that the most effective way to halt air attacks on the U. S. mainland would be destruction of the bases from which the attacks are launched and of the industrial centers supporting the attacks. It is on this theory that the retaliatory strike by long range B-36s, B-29s and B-50s are planned.

**Priority Targets**

Following this same reasoning, defense officials believe that the bases for those planes, in the continental U. S. and Alaska, would be priority enemy targets, the spots for which sneak raiders would head first. Making the bases useless for launching retaliatory strikes would be of prime importance to the enemy. Any bombers he got past the radar warning system and fighter defenses could be expected to streak for air bases.

Next in importance probably would be the great industrial areas and the nerve-center of government and military direction, Washington.

**Frank Answer**

When asked about defenses against a surprise air attack, the air force's frank answer sums up to this:

The nation's air defenses today are not satisfactory. The present radar stations comprising the warning net are composed of World War 2 equipment and are located on government sites—apparently places where the government has land on which to locate them, but not necessarily the most desirable locations.

The number of fighter squadrons backing up the radar system, although growing, is still inadequate. At present, it is said by one expert, they could afford only a token defense against even a moderate force operating against the administration.

**Lamar Hardy Dies**

New York, Aug. 18 (AP)—Lamar Hardy, 71, a former U. S. attorney for the Southern District of New York, died in a hospital today after a brief illness.

**Non-Scheduled Flight**

Harry DeBach, 20, Point Pleasant fireman, raced across a Syracuse street and charged up this 25-foot ladder in a race against time during a volunteer firemen's tournament. He missed his grip as he reached the top rung, flipped completely over in mid-air and landed on his feet. He sprained an ankle. (AP Wirephoto)

### Demand Is Heard for U.S. Policy

President Takes Issue  
With Wherry, Calls  
His Statement One of  
Contemptibility

#### Stennis Agrees

Mississippi Concurs  
Acheson Policy Was  
Repudiated

Washington, Aug. 18 (AP)—An exchange of sharp words between President Truman and Senator Wherry (R-Neb.)—both used the expression "contemptible"—piled more fuel on the political fire blazing in Congress over the administration's foreign policies.

Mr. Truman took sharp issue at yesterday's White House news conference with a Senate statement by Wherry, the Republican floor leader, that the blood of Americans dying in Korea is on the shoulders of Secretary of State Acheson.

Permitting reporters to quote him directly, an unusual procedure, the President said:

"That is a contemptible statement and beneath comment."

Two hours later Wherry fired back that the President's "failure to remove Acheson, after repudiating his stupid foreign policies, is contemptible."

"It was Acheson's consistent ap-  
peasement and coddling of Russia  
that paved the way for the Moscow-directed Communists to

overrun China and for the Moscow-directed North Koreans to spring upon the republic of South Korea," the Nebraska senator declared in a statement. He added:

"In Korea we are now reaping the whirlwind of Acheson's blunders and the President seems to be so confused and perplexed by the flood of events that he is blind to the obvious paths down which Acheson has advised him."

At Cleveland, Senator Taft (R-Ohio) joined in saying:

"My chief criticism of the administration is that I don't think they have a plan and know where they are going. And they haven't told the people."

Wherry's view that Acheson's policies were repudiated by the President's action in Korea was shared by Senator Stennis (D-Miss.).

Stennis told the Senate yesterday that there ought to be a clear statement of American aims and suggested that Congress write one if it isn't forthcoming from the administration.

**Frank Answer**

When asked about defenses against a surprise air attack, the air force's frank answer sums up to this:

The nation's air defenses today are not satisfactory. The present radar stations comprising the warning net are composed of World War 2 equipment and are located on government sites—apparently places where the government has land on which to locate them, but not necessarily the most desirable locations.

The number of fighter squadrons backing up the radar system, although growing, is still inadequate. At present, it is said by one expert, they could afford only a token defense against even a moderate force operating against the administration.

**Lamar Hardy Dies**

New York, Aug. 18 (AP)—Lamar Hardy, 71, a former U. S. attorney for the Southern District of New York, died in a hospital today after a brief illness.

**Non-Scheduled Flight**

Lake Success, Aug. 18 (AP)—The Security Council last night heard a U. S. demand that any Korean settlement provide for a unified independent country. Later the council adjourned until Tues-

day.

Chief U. S. Delegate Warren Austin made his country's major policy statement at yesterday's public session. The meeting was preceded by a private session at which council members tried again in vain to break the procedural blockade imposed by their Russian president, Jacob A. Malik.

Austin said the primary U.N. objective in Korea must be cessation of hostilities. But "the Korean people expect that when their gatheman has passed, they will

### Reds Open Drive on Taegu

Large dark arrow (1) shows area between Waegwan and Kunwi where North Koreans have opened drive on Taegu. Three Red divisions are reported within 15 miles of the city. In Changnyong area (2) Reds and Americans are engaged in some of the war's fiercest fighting. In Chungju sector (3) U.S. forces, withdrawn from Chinju-Sachon area (solid line) to new positions (sawtooth line), are alerted for possible North Korean push toward Pusan. Communists are believed assembling in Pohang area (4) for possible strike at U.S. communication center at Yongchon.

### Panic Seizes Taegu And Mass Exodus Begins From City

Chaos Rules as Hysteria  
Sweeps Population and  
Roads South Are  
Clogged

By HAL BOYLE  
Taegu, Korea, Aug. 18 (AP)—

Fear that has shadowed a half million hearts here exploded in panic today as a mass exodus began from this besieged city.

For several hours chaos ruled the streets of this refugee-swollen provisional capital of South Korea. The civilian populace was swept by hysteria. The scene on the ground was utter confusion. From the air the exits leading south looked like clogged lanes of frightened white ants.

The story of this flight of an entire city can best be told by telling what happened to one household.

This family lives beneath the window of a mission school where foreign war correspondents have been billeted more than one month. Its home had a jammed corridor that looked like the shanty communities that spring up around American city dumps—except the huts here are covered with pictures old tile roofs.

#### Unease Increases

As the Red Army slashed closer down the Seoul-Taegu-Taegu road unease increased in the city. It has 39 Presbyterian churches—but it also has more native Communists than any other South Korean city.

Reports spread that the Communists were held secretly armed and would rise up in a riot of private law practice.

William L. Pfeiffer, Republi-

cian state chairman, denied last

### Reds Flee Hard Push, Drop Arms

Two South Korean Units  
Stall 30,000 North  
of Taegu; General  
Is Jubilant

#### Flight Described

Observer Says 'Gooks'  
Ran in Helter-Skelter  
Way

Tokyo, Saturday, Aug. 19 (UPI)—Allied troops, tanks, artillery and air bombs turned two Red Korean thrusts—42,000 men—away from threatened Taegu city Friday.

South of Taegu a crack Red Korean division took what an American general called a "hell of a licking" at the hands of U. S. marines and infantrymen.

The city itself was turned into a steel-rimmed fortress by an allied evacuation order sending more than a half million civilians trekking away as refugees.

The South Korean government also was sent away to establish its new refugee capital somewhere.

The war-swollen populace was removed mainly so it would not get underfoot in military operations—and to reduce the possibility of uprisings by infiltrated Communists among the refugees.

A thrust by 30,000 North Korean troops was stopped 12 miles north of Taegu by South Koreans.

Then American and South Korean troops lunged at the big red force by Friday night with a blazing counter-attack.

At Changnyong, where 12,000 North Koreans had bulged eastward on the allied bank of the Nakdong river 23 miles southwest of Taegu, American marines and doughboys whipped the Communists in a bitter battle. Many Reds retreated back across the river, abandoning their weapons in panic.

Major Gen. John H. Church, commanding the joint marine-infantry attack at Changnyong, was jubilant over what his troops had done to the Reds.

Two South Korean divisions stalled the 30,000 Communists north of mountain-walled Taegu Friday morning. One of them, the South Korean First Infantry, pounced on the Reds in a counter-attack immediately. Friday afternoon and the U. S. 27th Regiment piled into the battle.

## Catskill Resorts Are Under Study

New York, Aug. 18 (AP)—Resorts in the Catskills are being studied as possible havens for thousands of evacuees from urban centers in the event of a wartime bombing attack.

State Housing Commissioner Herman T. Stichman said today the questionnaires on accommodations have gone out to operators of 2,100 hotels, camps and boarding houses in Sullivan and Ulster counties.

Commissioner Stichman, in a letter to the resort owners, recalled that such data were sought also during the last war and added:

"The new and more impelling threat which hangs over us today makes preparedness essential, and the information requested of you is a most important part of that effort."

### Slice Highway Bill

Washington, Aug. 18 (AP)—The Senate Public Works Committee—acting in accord with President Truman's request—today cut \$120,000,000 from a federal highway aid bill. Chairman Chavez (D-N.M.) announced that the group had trimmed the measure to \$620,000,000 to \$500,000,000. "The reductions," Chavez told reporters, "were made in view of the changed international situation brought about by the Korean situation and in view of increased military expenditures."

### It Rains Wheat

New York, Aug. 18 (AP)—It rained wheat on top of the Empire State Building today. Workmen building a television antenna atop the 102-story building reported they were peppered by tiny objects that later were identified as grains of wheat. No planes had passed overhead. Building officials wondered if the wheat could have come from grain elevators across the Hudson river in New Jersey.

### Card of Thanks

I wish to thank my relatives, friends and neighbors, the Crown, Blouse Co. and Jr. O. U. A. M. for their kindness shown during the illness and death of my father, Alfred Berryman, also for the beautiful floral offerings.

Signed,  
MRS. HENRY GEERZ,  
Daughter

### DIED

FLEMING—At Kingston, N. Y., Thursday, August 17, 1950, Joseph A. Fleming of Rosendale, N. Y., beloved brother of William, Patrick, John and Paul; uncle of Mrs. Patricia Schoonmaker, Maureen and Donald Fleming; grand uncle of Sharon Schoonmaker and Sandra and Pamela Fleming.

Funeral will be held from his late residence, James street, Rosendale, Saturday, August 19, 1950, at 10:30 o'clock thence to St. Peter's Church, Rosendale, at 11 o'clock where a high Mass of requiem will be offered for the repose of his soul. Interment in St. Peter's Cemetery, Rosendale.

RICHTER—Julia W. (nee Fiedler) on Wednesday, August 16, 1950, at Creek Locks, N. Y., beloved wife of the late John E. Richter; mother of Mrs. Walter Fatum, Mrs. George VanDermark, Mrs. Philip Sior, Mrs. Philip Coloselli; sister of Herbert, Eugene and Albert Fiedler.

Funeral will be held from the Henry J. Bruck Funeral Home, 327 Main street, Rosendale, New York, Saturday morning, August 19, at 8:30 o'clock, thence to St. Peter's Church, Rosendale, N. Y., where a high Mass of requiem will be offered at 9 a. m. for the repose of her soul. Interment in St. Peter's Cemetery, Rosendale, New York.

VAN-DE BOGART—At Shady, N. Y., Friday, August 18, 1950, Frances B. Van-de Bogart, mother of William L. Mrs. Glenford Snyder and Mrs. H. Hall.

Funeral service at the Lasher Funeral Home, Woodstock, Sunday, August 20, at 2:30 p. m. Interment in Woodstock Cemetery. Friends may call at the Lasher Funeral Home any time Saturday afternoon and evening.

WAGER—Caroline Brothhead (nee Roosa) on Friday, August 18, 1950, mother of Mrs. Esther Heaney, Levi Silas, Alfred and Rockford Brothhead; sister of Adolphus and Fred Roosa.

Funeral services will be held from the Henry J. Bruck Funeral Home, 27 Smith avenue, Monday at 2 p. m. Interment in Woodstock Cemetery. Friends may call at the funeral home any time from Saturday evening on.

### Think Body May Be Man's Missing From Small Boat

Tuckernuck Island, Mass., Aug. 18 (AP)—The body of an unidentified man was washed ashore yesterday on this island about three miles from Nantucket.

Medical Examiner George A. Foiger said the body had been in the water a long time.

State Police Cpl. Edgar Lindstrom said the body may be that of Frederick Humphrey of Southampton, Long Island, N. Y., who set out alone in his boat from Nantucket July 4 for Cape Cod. The boat was found drifting the following day but no trace of Humphrey has been found.

Lindstrom said relatives of Humphrey would view the body today in an effort to establish identity.

Humphrey was owner of the Humphrey Drug Products Co., at New Preston, Conn.

### Controls Clamped On Export Goods

Washington, Aug. 18 (AP)—The Commerce Department today clamped tighter controls on exports to Russia and her satellites.

Up to now, exports of all goods have been permitted without individual licenses unless the shipments were small enough (the limits ranged from \$1 to \$1,000, depending on the type of goods).

Effective immediately, the licensing procedure was revised with regard to 14 countries. Shipment of goods on the Commerce Department's list of 1,100 controlled items to those countries now must be licensed no matter how small the amounts.

The countries affected: Albania, Bulgaria, China, Czechoslovakia, Estonia, Germany (Russian zone), Hungary, Latvia, Lithuania, Manchuria, North Korea, Poland (and Danzig), Romania, and the U.S.S.R.

Department officials said the quantities of controlled goods going to these areas in small lots without licensing are not very large. Therefore the action will not have a particularly heavy impact but constitutes a general tightening of controls.

### Local Death Record

Mrs. Caroline Roosa Brothhead, 54, of 46 Staples street died today in Kingston following a long illness. She is survived by a daughter, Mrs. Esther Heaney, Kingston; four sons, Levi Silas, Alfred and Rockford Brothhead, all of New York; two brothers, Adolphus Roosa, Middletown; and Fred Roosa, Cornwall; 11 grandchildren and 11 great grandchildren. Funeral services will be held from the Henry J. Bruck Funeral Home, 27 Smith avenue, Monday at 2 p. m. Burial will be in the Kysersie Rural Cemetery. Friends may call at St. Peter's Church, Rosendale, at 11 o'clock where a high Mass of requiem will be offered for the repose of his soul. Interment in St. Peter's Cemetery, Rosendale.

RICHTER—Julia W. (nee Fiedler) on Wednesday, August 16, 1950, at Creek Locks, N. Y., beloved wife of the late John E. Richter; mother of Mrs. Walter Fatum, Mrs. George VanDermark, Mrs. Philip Sior, Mrs. Philip Coloselli; sister of Herbert, Eugene and Albert Fiedler.

Funeral will be held from the Henry J. Bruck Funeral Home, 327 Main street, Rosendale, New York, Saturday morning, August 19, at 8:30 o'clock, thence to St. Peter's Church, Rosendale, N. Y., where a high Mass of requiem will be offered at 9 a. m. for the repose of her soul. Interment in St. Peter's Cemetery, Rosendale, New York.

VAN-DE BOGART—At Shady, N. Y., Friday, August 18, 1950, Frances B. Van-de Bogart, mother of William L. Mrs. Glenford Snyder and Mrs. H. Hall.

Funeral service at the Lasher Funeral Home, Woodstock, Sunday, August 20, at 2:30 p. m. Interment in Woodstock Cemetery. Friends may call at the Lasher Funeral Home any time Saturday afternoon and evening.

WAGER—Caroline Brothhead (nee Roosa) on Friday, August 18, 1950, mother of Mrs. Esther Heaney, Levi Silas, Alfred and Rockford Brothhead; sister of Adolphus and Fred Roosa.

Funeral services will be held from the Henry J. Bruck Funeral Home, 27 Smith avenue, Monday at 2 p. m. Interment in Woodstock Cemetery. Friends may call at the funeral home any time from Saturday evening on.

DR. DUGGAN Dies

New York, Aug. 18 (AP)—Dr. Stephen Duggan, 76, founder and former director of the Institute of International Education, died today in Stamford, Conn., hospital.

The institute announced Dr. Duggan, a resident of Old Ridge Road, Stamford, retired as head of the institute in 1946.

John Burr, 71, of 34 North Main street, died suddenly at his home Thursday morning, following activity fighting a forest fire the day previous in a wooded section four miles from here. Besides his wife, who was Tena Dymond of Rosendale, he is survived by a daughter, Mrs. Margaret Balch of New York, a son, Vincent Burr of Middletown, three grandchildren and an aunt, Mrs. Rachel Searle, 92, of New York. His funeral will be held from the H. B. Humiston Funeral Home, Kershawson, Sunday at 2 p. m. Burial in Rosendale Plains Cemetery. Mr. Burr was a member of Rosendale Lodge, Independent Order of Odd Fellows.

Enlistments Authorized

New York, Aug. 18 (AP)—The marine corps has authorized enlistments for the duration of the emergency only, recruiting officials said today. Previously, recruits had to sign up for four years. Louis H. Wilson, chief recruiting officer here, said the new policy, similar to one adopted for World War 2, was expected to bring in more men. He said the new policy also provided for three-year enlistments.

Fingerprints, Oath

Registrants for all civil defense posts must be fingerprinted and must be willing to take a loyalty oath.

Police and fire auxiliaries will be recruited from retired but physically fit firemen and policemen, civil service employees not already assigned to civil defense posts, and other civilian volunteers.

Volunteer firemen will doubtless play an important part as auxiliary firemen, but they should also register if they desire to serve during any possible war emergency, Fire Chief Murphy said.

Meanwhile, Mrs. George Dewey Logan, supervisor of the Army Observation Post, Ground Observers Corps, issued a call for women volunteers willing to serve during the morning hours.

15 Persons Sign

Approximately 15 persons signed up to serve as spotters at the second registration at the Governor Clinton Hotel, Thursday night. Mrs. Logan stated to day that the only hours not covered at present are those from 6 a. m. to 2 p. m. Since most men work at that time, she urged those to volunteer to serve during those hours.

She suggested that many store clerks who do not start their regular work until 10 a. m. might be willing to serve between 6 and 8 a. m. Those are difficult hours as many women must be home to send their children off to school, and men are getting ready to go to their places of employment. Volunteers may make arrangements to register at Mrs. Logan's home, 58 Garden street.

The things you now choose together are the things you will always cherish most!

### JET PILOT JETTISON RIDER

### Financial and Commercial

New York, Aug. 18 (AP)—A five-week rally in the stock market kept on rolling today.

Oil, rails, steel, motors, and coppers were top favorites with gains running to a top of \$2 a share.

Advances elsewhere were mostly below \$1 a share. A light sprinkling of losses dotted the list, notably in the aircraft and radio-television groups.

A good amount of business was done, although the trading pace was slower than yesterday when 2,170,000 shares changed hands.

Today's advance carried the price level, as measured by the Associated Press average of 60 stocks, to the peak of the post-Korean rally.

Following our intervention in Korea at the end of June, prices broke sharply, and on July 13 the market plunged to its 1950 low. Since touching the low the price level has steadily curved upward and is now within whispering distance of the pre-Korean level.

Highest prices were paid for Standard Oil (N.J.), Barber Oil, Warren Petroleum, Sinclair Oil, Kennecott Copper, Anaconda Copper, U. S. **This Is the H-Bomb**By HOWARD W. BLAKESLEE  
(A.P. Science Editor)

New York, Aug. 18 (AP) — The hydrogen bomb, if 1000 times more powerful than an A-bomb, is like a July Fourth fireworks piece that shoots more than once.

The first shot is a flash of heat at the speed of light. This shot covers a circle 40 miles in diameter with heat that can be fatal to anyone without shade. In Japan the similar area of fatal flash burns from the A-bomb was less than two miles in diameter, but it accounted for 20 to 30 per cent of the deaths.

The 40 mile circle is not the limit of H-bomb flash heat. In Japan the A-bomb flash caused serious skin burns up to 10,000 feet. This means that a thousand-fold greater H-bomb would burn the flesh painfully within a circle of 100 miles.

The second shot is blast or concussion. This is a wall of compressed air about 1000 feet thick for the A-bomb, much thicker for the H-bomb. The wall is followed by big winds, blowing out and back.

The blast starts with the heat flash but travels much slower. It does not reach so far. The blast will flatten nearly every kind of man-made structure inside a circle 20 miles in diameter.

**Circle Is Not Limit**

The circle is not the limit. The H concussion goes ten times farther than the A concussion, and at Nagasaki a barracks collapsed at five miles. Buildings near the barracks were unharmed. This means that in a circle of 100 miles some buildings will topple.

The H-bomb with this immense spread will be detonated several miles above the earth. If exploded lower, its reach will be shortened.

Assume a perfect H hit on New York city, some miles directly overhead of Broadway and 42nd street.

The blast would flatten all but the strongest buildings in all

**GERMAN ART FOR U. S. CHURCH**—A workman fits mosaic section into almost completed altarpiece being made by a firm in the American occupied sector of Berlin, Germany, for use in the Church of the Sacred Heart in Lowell, Mass. Although this mosaic represents the firm's first postwar order from abroad, it shows the industrial revival now under way in Western Germany under the direction of the Allied powers.

**Marines Call Reserves**

New York, Aug. 18 (AP)—The Third Marine Corps Reserve District announced yesterday it is calling to extended active duty all male inactive reserves holding the ratings of sergeant and below. A corps spokesman said the new call affects members in New York, northern New Jersey and Connecticut. The number of men involved was not revealed. The district began processing its files.

Wednesday, but said it did not know how soon the first orders would be mailed.

**Vote Is Given**

Brussels, Belgium, Aug. 18 (AP)—The House of Representatives gave a 107-78 confidence vote to Belgium's new Social Christian government last night on its economic and armament policy. The Senate is scheduled to vote today on Premier Joseph Pholens' new cabinet.

After the flash and blast, comes the fire ball. This is incandescent air. From the A-bomb the fire ball diameter is nearly a thousand feet, the initial temperature 300,000 degrees, and for ten seconds this ball is mostly hotter than the surface of the sun.

No predictions have been made about the size of the H fireball. It will be bigger and hotter and last longer. It will be the A-bomb fireball plus something more.

It—and this is a big if—the fireball size increases at the same rate as the heat flash, then this flaming piece of artificial sun would be 30 times greater.

The H fireball will add to the deaths from burns, and to the fires in the blasted area.

The radioactive dangers are not on the same scale. They do not increase at the terrific rates of blast and heat. Why not, and what the speculations are will be explained tomorrow.

Aristotle was first in so many branches of science and thought that for centuries he was known simply as "The Philosopher."

Wednesday, but said it did not know how soon the first orders would be mailed.

Although "Three Little Words" does take a few minor liberties with the facts, it manages to stick pretty close to the unashamed truth, and the end-result is a sweetie-pie of a picture which hit me squarely where I reminisce.

After I saw it, I couldn't help but wonder how it ever got to be made. The Kalmar-Ruby song catalogue is respectable enough, but hardly in a class with those of Romberg, Filini or Youmans.

By BILLY ROSE

song writers whose life stories have so far been bypassed by the movie moguls. What was the gen on the coast who was venturesome enough to pass up the hokey stuff of which celluloid dreams are made for a simple story about two sweet guys? Who was bright enough to realize that such a story, if told without too many trimmings, would be a welcome antidote to the snail-and-slash epics currently cluttering up our screens.

By dint of considerable master-minding and one quick phone call, I discovered it was producer Jack Cummings, a sweet guy on his own who is married to Jerome Kern's daughter. When the studio gave him the go-ahead signal, I further learned, he went out of his way to enlist the services of several other what's-all-the-shootin'-for-gents George Wells, the scripter, and Fred Astaire and Red Skelton who play Kalmar and Ruby.

The performance of Fred Astaire—well, what can one say about the great nimble-foot of our generation except that when he is in motion this is still the best of all possible worlds? As for the performance of Red Skelton, I have a plenty to say. This comic has never been my cup of oolong, and his mirthful muggings have generally left me unmoved. His impersonation of Ruby, however, is a restrained and believable one, and for the first time I found myself warming up to him. As Deems Taylor, one of our guests, put it, "Whoever thought Skelton was an actor?"

"Three Little Words," I hasten to add, isn't the greatest movie that ever came out of Hollywood. Nevertheless, it's head and hip boots above most of its current competition, and if you feel like having your nostalgia nudged I recommend its 90 minutes of unadorned and unabashed sentiment.

After I saw it, I couldn't help but wonder how it ever got to be made. The Kalmar-Ruby song catalogue is respectable enough, but hardly in a class with those of Romberg, Filini or Youmans.

The world's most popular engine

More truckers use Chevrolet than any other make. And one important reason is Valve-In-Head engine design. For 38 years Chevrolet has been the largest producer of Valve-In-Head engines—famous for power, dependability, and economy.

Blue-Flame combustion

Chevrolet's Valve-In-Head design makes possible the smooth, even burning of the fuel—blue-flame combustion. Combustion chambers are scientifically shaped to wring more power from every drop of gasoline.

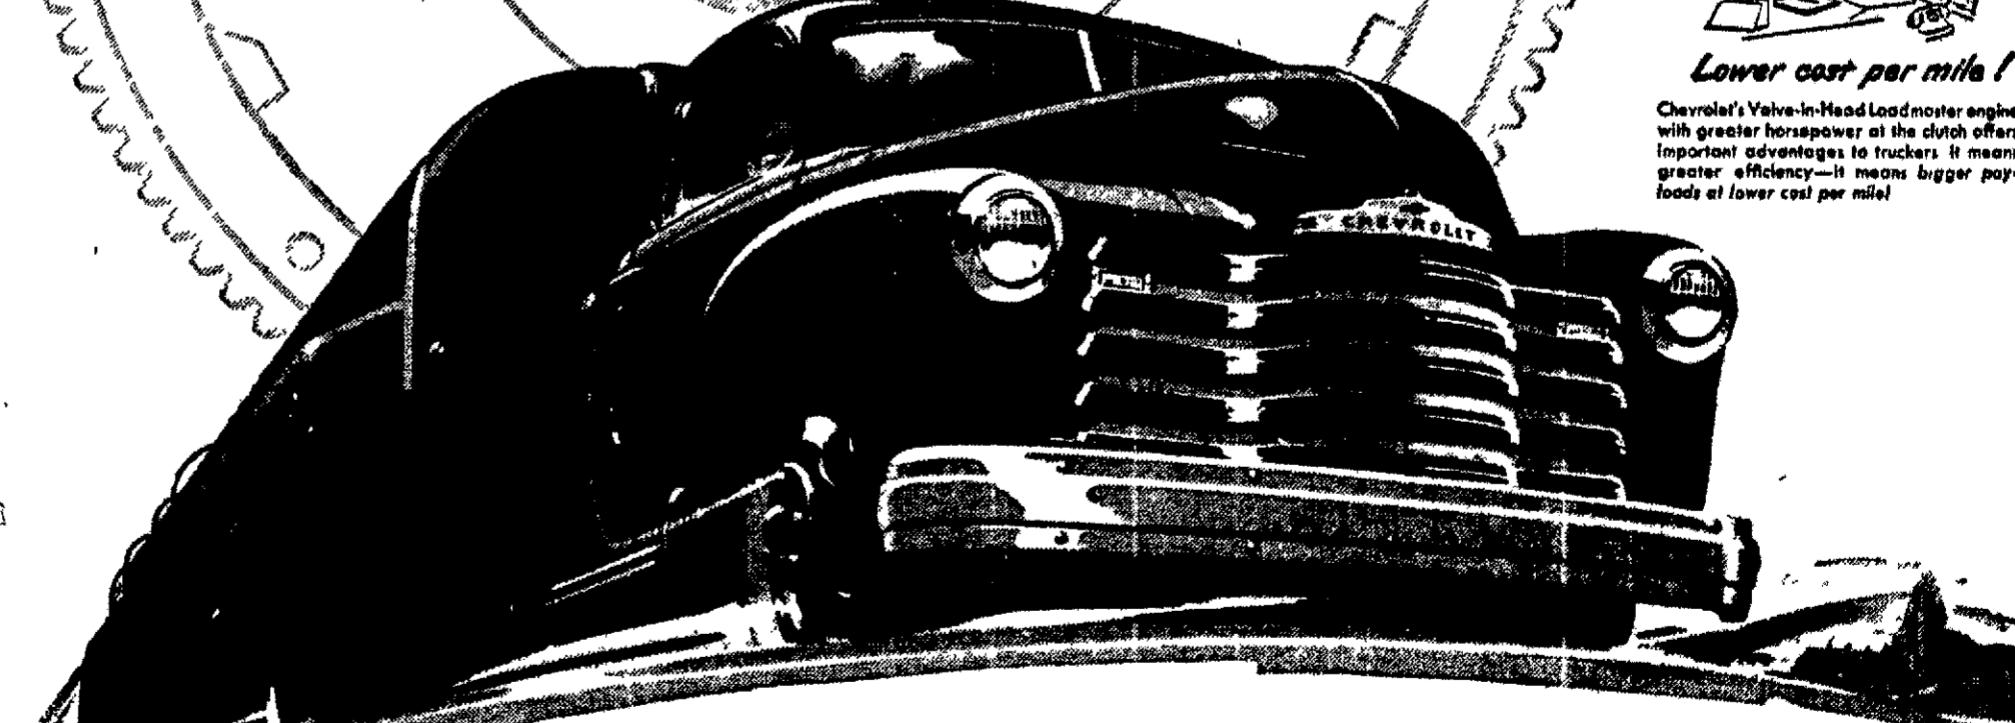

Lower cost per mile!

Chevrolet's Valve-In-Head Loadmaster engine with greater horsepower at the clutch offers important advantages to truckers. It means greater efficiency—it means bigger pay-loads at lower cost per mile!

# CHEVROLET TRUCKS

deliver more horsepower  
at the clutch.

## PLUS-Chevrolet Advance-Design Truck Features!

TWO GREAT VALVE-IN-HEAD ENGINES: the new Loadmaster and the improved Thrifmaster—to give you greater power per gallon, lower cost per load. • THE NEW POWER-JET CARBURATOR: smoother, quicker acceleration response. • DIAPHRAGM SPRING CLUTCH, for easy-action engagement. • SYNCHRO-MESH TRANSMISSIONS for fast, smooth shifting. • HYPOID REAR AXLES—5 times more durable than spiral bevel type. • DOUBLE-ARTICULATED BRAKES—for complete driver control. • ADVANCE-DESIGN STYLING with the "Cab that Breathes". • BALL-TYPE STEERING for easier handling.

Net horsepower . . . the power you use, the power delivered at the clutch . . . is the true measuring stick of a truck's ability to haul payloads. And for net horsepower, Chevrolet heavy-duty trucks with Loadmaster engine have no equal among the five most popular standard equipped makes in their

weight class—13,000 to 16,000 lbs. G.V.W. Chevrolet heavy-duty trucks lead them all! Check the serial plates of all other popular makes for proof. And remember—it's the power at the clutch that counts! Come in and let us tell you the full story of Chevrolet's truck leadership.

\* Proved by certified ratings on engines used on standard equipment in conventional models of the five most popular makes.

### TELLING OUR STORY

Some quarrels are won by the side which presents the most reasonable arguments. Others are won by the side which makes the most noise. These are simple facts which Americans have to apply to world affairs. We want to win our victories by reasoned argument, not by the loudest shouting. But we are in a situation where we must take care lest the other side defeat us by out-shouting us.

It may well be wondered whether anything is being gained in the bitter, repetitive exchanges of insult and accusation in the United Nations. Yet the United States has no choice but to participate in these exchanges, which seem to be of the shouting rather than the reasonable variety. The Soviet Union is using the Security Council as a platform from which to shout its version of the incident in Korea. Although this version does not match the known facts, some people might begin to accept it if it can be told often and loudly enough. Therefore the American story, based on facts which others will be able to recognize, must be told and retold from this same platform, and whenever the Red version is told.

This is a technique which the United States has neglected too much in the battle of words with Russia and the Communist satellites. We have often looked on Communist lies as too ridiculous to require notice. Yet everyone knows the success which can be obtained by telling it often and clinging doggedly to the pretense that it is a fact. That is what the Russians are doing, not only with respect to Korea but on many other matters. It is up to us to deny these lies, to prove their falsity item by item, and to do it as often as the lies are told. If we do not do this, we are in danger of losing the battle of words simply by permitting the other side to talk louder and longer.

### METEORITE AND EARTH

There is reassurance in contemplation that the giant crater which has been discovered far north in Quebec likely was made by a huge meteorite which struck the earth some three to five thousand years ago. If meteorite it was, the force of its impact must have utterly dwarfed the greatest force scientists have been able to manufacture with atomic explosives. Yet its crater, two and a half miles across, is but a pin-prick on the surface of the earth, and the only remaining marks of that terrific force are the crater itself and the ripples in the granite around it. To be sure this occurred in an area of the earth which is deserted because of its climate. But even had it happened in a spot of dense population and high development, its effects in the time of a few generations would similarly have dwindled to a hole in the ground and ripples in the stone.

Here is a comforting thought for those moments when we fear that man, tinkering with the explosive energy of atoms, may some day blow up the earth and himself with it. Man may blow up himself, but it is quite improbable that he will blow up his earth. The earth, physically, is a very solid and secure establishment, and in relation to the life span of a man it is unchanging. If we could impart to our own human operations something of the solidity and stability of the earth, we should have little to fear.

### FIRE SAFE HOME

From the point of view of fire, the home is one of the most dangerous of all places. Yet it need not be. The hazards are simply the result of ignorance, carelessness and forgetfulness. They are created by human failure. And this can be corrected in most instances easily and inexpensively.

Fire loss has been running higher this year than last year and during June it reached the highest figure for that month recorded during the past 21 years. And, as the waste rises, the death and injury toll rise with it.

Between now and the same hour tomorrow, fires will break out in about 1,100 homes. This is the average for a 24-hour period.

If that fact doesn't interest you, here is one that will. In that day and night, if it

By GEORGE E. SOKOLSKY

### BE COUNTED!

There is a little revolution in the Radio Writers Guild over a big issue. "Variety," the trade paper of the amusement profession, reports that when some members of the Radio Writers Guild wanted a resolution passed, supporting the position of the government of the United States in Korea, it nearly wrecked this organization, whose members write the scripts for the various plays that appear on radio.

"Variety" called the issue a "hot potato." On July 14, Welbourn Kelley, a writer, addressed this letter to the Radio Writers Guild:

"On July 11, leaders of American labor—A.F.L.-C.I.O.-U.M.W.—met in Washington with Stuart Symington, head of the National Security Resources Board, and offered their organizations' cooperation to the government in the Korean crisis.

"At the next meeting of our council, I should like to offer the following resolution:

"Recognizing that writers in all media are of the utmost importance in the dissemination of vital information during a time of national crisis, now therefore be it resolved that the eastern region of the Radio Writers Guild urges that Authors League of America to offer to the proper United States government officials the league's fullest cooperation in any educational and non-political capacity in which the league or its guilds may be of service."

"Could this get on the next agenda?"

Finding himself part of an organization that rejected such a resolution, he resigned as an alternate council member. The following two letters are interesting:

From Sheldon Stark, eastern region vice president, to Welbourn Kelley—July 26, 1950:

"I am writing to you to reconsider and withdraw the resignation you tendered last night. I appreciate how deeply you feel on the resolution you presented. But no one knows better than you how the guild's position with the agencies and sponsors might be complicated should anything of what transpired leaked (sic) out.

"You're a founder of the guild. You know a hell of a lot more than most of us about the negotiations with the agency and sponsor group and how important it is to keep united until we get the contract in the bag."

"You helped hammer out that contract and we need your support to wrap it up."

"I have no doubt that at some later, more propitious time, your resolution will be more in order. World events certainly seem to be shaping up that way. Meanwhile your guild is in a tight squeeze. The contract is one thing on which all of us must pull together."

"Will you let me know?"

From Welbourn Kelley to Sheldon Stark—July 31, 1950:

"... My actions were taken after long consideration. In all humility, I believe those actions to be, in the long run, to the best advantage of the Radio Writers Guild, of which I am a founder and which will always have my support."

"At the meeting previous to the one on the night of July 25 you may recall that I walked out early with the excuse that I had 'work to do.' Actually, I could not stomach the vilification and abuse which were being heaped upon such organizations as the American Legion (of which I am a member) and the Catholic Church (of which I am not a member) simply because they were attacking communists."

As I read this correspondence, I wondered when Mr. Stark would regard it as "more propitious" for Americans to stand behind our boys who are being battered and killed in Korea by Stalin's agents.

Welbourn Kelley has done a magnificent job for America. Those who write the scripts that come over the radio must in their hearts be unquestionably loyal to the United States and its institutions. They influence our children. Even in plays and soap operas, some of them have for years used the American radio to support the position of Soviet Russia.

But radio is not alone to blame. Many advertising agencies, which control the expenditure of billions of dollars to stimulate an interest in commodities, employ left-wingers because "they are smart and know how to write." That is not a good enough reason for using capitalist money to sell Marxist propaganda. The top men of the advertising agencies and their business sponsors should be held personally responsible for the programs they present to the public.

## That Body of Yours

By James W. Barton, M.D.

### EMOTIONAL SECURITY

It is fortunate that most of us are not entirely satisfied with ourselves and our work. If we were satisfied, there would be no growth mentally or emotionally. Because we are not satisfied, we try to improve ourselves so that we will achieve not necessarily financial security but what is more important, the maturity of the mind and emotions that will make us an asset to the community.

A few weeks ago, Dr. Edward A. Strecker, the famed psychiatrist, head of the Department of Psychiatry, University of Pennsylvania School of Medicine, in an address at the Cooper Union Forum, listed eight "personality qualities" of emotional maturity.

1. Sticktoitiveness: the ability to stick to a job, to work on it, and to struggle through it until it is finished or until one has given all one has in an endeavor.

2. The quality or capacity of giving more than is asked or required in a given situation. Reliability.

3. Persistence is an aspect of maturity. Persistence (like sticktoitiveness) to carry out a goal in the face of difficulties.

4. Endurance: the endurance of difficulties, unpleasantness, discomfort, frustration, hardship.

5. The ability to size things up, make one's own decision. This implies a considerable amount of independence. A mature person is not dependent, unless ill.

6. Maturity represents the capacity and willingness to cooperate; to work with others, to work in an organization and under authority.

7. Maturity includes determination, a will to achieve and succeed, a will to live.

8. The mature person is flexible, can defer to time, persons, circumstances. He can show tolerance, he can be patient, and above all, he has the qualities of adaptability and compromise.

While most of us attain physical and mental maturity, if we measure ourselves by Dr. Strecker's yardstick we may find that we lack emotional maturity, which is most important of all.

Dr. Strecker in conclusion states: "The attainment of emotional security for a larger and increasing number of our citizens is the most important consideration that I know of. It is important not only for the individual but also, I think, upon it depends the survival of our democracy. All in all, it is more important for our survival than the atomic or H bomb."

### Neurosis

Believing you have a physical ailment when none exists is a neurosis and is becoming increasingly common. Write today for Dr. Barton's informative booklet on this subject entitled, "Neurosis." To obtain it, send 10 cents and a 3-cent stamp, to cover cost of handling and mailing, to The Bell Syndicate, Inc., in care of The Kingston Daily Freeman, Post Office Box 99, Station G, New York, N. Y., and ask for your copy.

(Released by The Bell Syndicate, Inc.)

follows the averages, 30 Americans will be killed by fire, most of them in their homes. Many more will be injured and mutilated. Some will be crippled for life.

Make your home safe from fire now.

"home front" to combat hoarding and profiteering.

### Capital Chaff

Worried mothers can't stop their 17-year-old sons who have enlisted in the National Guard from being shipped to Korea. Though the regular army, navy and air force won't take 17-year-olds without parental permission, no waiver is needed for them to join the National Guard.

Washington—The most glaring weakness in our law-enforcement system is the way underworld hoodlums are able to thumb their noses at the authorities—with the help of political pals.

For example, take the case of Salvatore Carolla, notorious New Orleans racketeer and big shot in the "Black Hand" underworld society. When Carolla was convicted on a narcotics rap in 1938, immigration authorities tried to deport him to his native Italy. However, they found themselves up against the old political runaround. Year after year, Congressman Jimmy Morrison of Louisiana introduced a succession of bills to keep Carolla in this country.

Though this held up Carolla's deportation for a decade, he was finally kicked out and flew home to Italy in style. But he stayed only six months, and then was ordered back to Mexico by Lucky Luciano, former vice lord of New York city and international boss of the "Black Hand." The next time immigration authorities tried to deport him to Italy, he was finally kicked out and flew home to Italy in style. But he stayed only six months, and then was ordered back to Mexico by Lucky Luciano, former vice lord of New York city and international boss of the "Black Hand."

Though this held up Carolla's deportation for a decade, he was finally kicked out and flew home to Italy in style. But he stayed only six months, and then was ordered back to Mexico by Lucky Luciano, former vice lord of New York city and international boss of the "Black Hand."

Note—Another notorious New Orleans racketeer and big shot in the "Black Hand" underworld society, when Carolla was convicted on a narcotics rap in 1938, immigration authorities tried to deport him to his native Italy. However, they found themselves up against the old political runaround. Year after year, Congressman Jimmy Morrison of Louisiana introduced a succession of bills to keep Carolla in this country.

Majority Leader Scott Lucas and Minority Leader Ken Wherry are riding around in run-down limousines, because their colleague, Sen. Allen Ellender of Louisiana, is blocking the money to buy new ones. . . . Hindu newspapers are printing cartoons of Uncle Sam, covered with dollar signs, sitting on a pile of surplus wheat while an emaciated Indian pleads vainly for food. Reason is that the State Department won't spare 60,000,000 bushels of surplus wheat to avert famine in India.

Senate crime探bers are complaining that they get no cooperation from the F.B.I.

The monumental job of publishing the Nuremberg war trial records will be completed by December. Tragic fact is the books won't be distributed in Germany, where they'd do the most good.

Men who sell wire-tapping equipment estimate Washington has at least 12,000 electronic recorders capable of recording telephone conversations. Some firms give free wire-tapping lessons upon request. President Truman has told his staff he will veto the Mundt-Nixon bill "if it costs me a million votes."

Truman considers the controversial measure a dangerous threat to civil liberties. . . . While Larry Norstad, the air force's No. 2 general, was visiting the Far East recently, he personally inspected the front lines in Korea.

Weiskotten raised eyebrows at the secret meeting by admitting that he was "embarrassed" by A.M.A.'s attack on the medical aid measure, sponsored by Rep. Andrew Blumler of Wisconsin.

"The American Medical Association has made a terrible mistake by opposing this important legislation," he said.

Note—Both President Truman and Defense Secretary Louis Johnson have urged enactment of the Blumler bill as a wartime must. At recent meeting with members of the House Interstate Commerce Committee, Truman termed the measure "the most vital health legislation before Congress."

### Headlines Are Telling Why This Nation Was Not Better Prepared to Fight in Korea

By DAVID LAWRENCE

Washington, Aug. 18—Unwittingly the headlines in American newspapers in the last 48 hours have told why America hasn't been better prepared to fight the war in Korea.

The dramatic story of the mass flight of B-29s which dropped 850 tons of bombs over a 26-square-mile area in

## Dewey Says 27th Ready for Crisis

Pine Camp, Aug. 18 (AP)—Governor Dewey said today the 27th Infantry Division of the New York National Guard was "ready" for what he sees as a long world crisis over communism.

Dewey called the guardmen "a hard core of patriotic men" shortly before 9,000 trainees were to parade in review before him at this northern New York training camp.

He flew here to participate in Governor's Day ceremonies and to accept a salute from the troops as parade reviewing officer.

The reviewing staff included Maj. Gen. Karl F. Hausauer, Dewey's chief of staff, and N.Y.N.G. commander, Maj. Gen. Ronald C. Brook, commander of the 27th, and mayors of several cities having divisional units.

The 101st Signal Battalion of Yonkers and Ossining and the 133rd Ordnance Company of Rochester also were to participate in the review. About 7,500 members of the 27th were on hand.

Although the 27 has not been alerted for a call to federal service, Dewey told the troops in a prepared address:

"When you are called to active federal service, I know you will give a fine account of yourselves and bring added glory to the 27th Infantry Division and to the state of New York."

More than 15 non-divisional N.Y.N.G. units were alerted last month for calls to active U. S. service sometime after Aug. 14. Neither the 27th nor the 42nd Infantry Divisions were alerted.

Dewey quoted an American soldier in Korea.

"Every man, woman and child in the United States had better get ready to defend himself. It's Korea today and some other part of the globe tomorrow, and I don't think the Communists have any intention of letting up on us."

By OSWALD JACOBY  
Written for NEA Service

"That was a nicely played hand, partner," said Hard Luck Joe. "It's too bad we didn't bid game. Should I have bid three diamonds? I really don't think that I could have bid three no-trump."

"You've got too many words in that sentence," said South mournfully. "You just don't think—period. You still haven't thought of what you should have done."

While Joe is thinking that one over, let's see how the hand was played at two no-trump.

West opened the king of clubs, and South won with the ace. Declarer knocked out the ace of diamonds, and West, desperately in search of a suit, shifted to a heart. South won in his own hand and knocked out the ace of spades. West could take his queen of clubs for the third defensive trick, but declarer easily won 10 tricks.

Evidently South thought something had gone wrong with the bidding. Do you see what? Decide for yourself before you read on.

It was very foolish of Hard Luck Joe to bid two diamonds with the North hand. He should have doubled two clubs for penalties.

His partner had opened the bidding with one no-trump, thus showing almost half the high-card strength of the deck. North had about a trick and a half and could therefore tell that West must have the rest of the high cards and that the East hand must be a complete bust. Certainly the North-South hands contained far more high-card strength than the East-West hands.

When a player bids no-trump, moreover, he guarantees either three cards or a strong doubleton as a minimum in each suit. North therefore had reason to suppose that his own four clubs plus his partner's probable three clubs would give the North-South hands more clubs than the opponents.

Since North could tell that his side had more high cards and more trumps than the opponents, it was clearly impossible for West to come close to making two clubs. Hence North should have doubled.

West would have been very unhappy at a contract of two clubs doubled. He would surely lose two spades, three hearts, and a diamond, together with either two or three trump tricks. At the very least, he would be penalized 500 points. If he slipped, he would lose 1,100 points.

Either penalty would have been far better than the meagre part-score contract that North and South actually reached. Even if North and South had managed to stagger into game, they still could not have made a many points as by doubling two clubs.

## Automotive Hint

The clutch of your automobile should always have an inch of free play. Without this degree of latitude, clutch springs are bound to show the effect.

## Leaves From Boyle's Notebook

Korea (AP)—There are nights here that make American soldiers feel closer to home. Many have told me so.

To those holding outposts the darkness has the terror of the unfamiliar. But the night in any way tugs with uneasy fear the belly of one on guard. He can't see what may be coming toward him and wonders if his cry of "Halt!" will be followed by a bullet.

Stayed Up All Night

One night I stayed up with Capt. Edward A. Dougherty of Leonardo, N. J., and watched the stars in their silent march. And there was a calmness in their high-lit walk across the sky that claimed ones sense of restlessness.

Below the balcony of the old wooden school building on which we stood we could hear the sleep stumblings of a Korean family, making the same night noises that other families we thought of would be making some 14 hours later 8,000 miles away on the other side of the world. In any language people sound pretty much the same at night when they are tired and sleepy.

"You know we have nights as beautiful as this at home," said Capt. Dougherty. "But people don't stay up to look at them. They would rather go to a night club."

And as they think of home they compare the nights there and the nights here without malice. They can't see the rice paddies or the oxen or the Japanese-style rooftops or all the hundred and one other things strange to them.

**Beautiful Under Moon**

The Korean land comes into its own—and it is beautiful as most lands are at night under a climbing moon.

The lonesome soldier hears the family sounds from a nearby Korean home—the rugged snores, the wall of an infant, and the soft padding steps of a mother getting up to see that her baby is all right. And he says to himself,

"That's the way my folks sound at home."

And many and many a soldier in this old and young army has a family of his own to think of—a child crying in nameless panic at the lack of light, a wife getting up

### Including the Sink!

Chicago (AP)—Burglars broke into Harry Schrober's house. They took a phonograph, a mattress, a garbage burner, a wash basin and the kitchen sink.

No other whiskey offers you so much for your money!

**The BANKER'S STORY**

**"BENCH" becomes a BANK!**

IN THE GREEK AND ROMAN TEMPLES IT WAS THE CUSTOM OF THE MONEY-CHANGERS TO TRANSACT THEIR BUSINESS UPON A BENCH, WHICH IN LATIN IS "BANCUS." THIS IS THE ORIGIN OF THE WORD "BANK".

*"It Matters Not How Little You Save, but How Often."*

Down thru the history of the world, the people who learned the value of money and the necessity of thrift, were the people who made a success of life and generated the growth of their community. The dollars you save are the backbone of your very existence. Success and thrift go hand in hand.

## Vacation Disasters Wipe Out Family

Bear Mountain, Aug. 18 (AP)—Two vacation disasters during the past year have wiped out a family of three.

Yesterday Hoyt D. Smith, 53, of the Mamaroneck, N. Y., junior high school, and his daughter Sylvia, 14, died in the flaming wreckage of their small plane. They were vacation-bound in trouble over their camp site.

Two Queens campers witnessed the crash of the Smith plane.

They are John T. Jensen, 17, of 138-23 228th street, Laurelton, and George J. Saig, Jr., 17, of 47-141st avenue, Rosedale.

The two youths saw the plane

dent of the New York State Association of Elementary School Principals.

Smith and his daughter lived at 1818 Palmer avenue, Larchmont, he was a past president of the Larchmont Rotary Club.

Two Queens campers witnessed

the crash of the Smith plane.

They are John T. Jensen, 17, of

138-23 228th street, Laurelton,

and George J. Saig, Jr., 17, of 47-141st avenue, Rosedale.

The two youths saw the plane

in trouble over their camp site.

Circling at 800 feet, with the

pilot looking for a landing spot

suddenly the plane nosedived and crashed.

Unable to approach the intense

fire that enveloped the plane, the

boys raced off and notified park

employees who called state police

and a state forest ranger.

at that, saying he was afraid the

press would break. Well, yesterday,

Cox retired after 28 years

with the paper and The Ledger

printed his picture. The press

broke down.

**And It Did Break**

Ellwood City, Pa., Aug. 18 (AP)—

A burglar was the first "customer"

of the King Sandwich Shop in

Lancaster. When Ruth Blum, an

employee, opened the shop for the

first time yesterday she found the

place had been looted of sliced

ham, cigars, cigarettes and other

items.

by the Saskatchewan government

and the disabled handicapped

of Saskatchewan.

## Aid for Disabled

Moose Jaw, Sask. (AP)—A new retail store will sell merchandise manufactured at the disabled civilians' workshop here. It employs a staff of 24, of whom 20 are disabled and produces about \$48,000 worth of goods a year. These include silk and rayon dresses, cotton house dresses, sheets, pillow slips, coverlets, babies' diapers, nurses' and waiters' uniforms and hospital garments. Both the store and workshop are jointly owned by the Saskatchewan government and the disabled handicapped Civilians' Association of Saskatchewan.

## Farmers Asking What They Can Do In Mobilization

### Kerhonkson

Kerhonkson, Aug. 18—Mr. and Mrs. Maynard DeWitt entertained Mr. DeWitt's nephew and wife, Mr. and Mrs. M. Quick of Washington, D. C., a few days last week.

Mr. and Mrs. Harry Smith entertained guests from New Jersey last week.

Mr. and Mrs. Maurice LeBouef had as guests this week Mr. LeBouef's sister and aunt from Connecticut.

Mrs. Samuel Fisher and son are visiting their parents at New Hampton for a few days.

Mrs. Marlan Ramshaw is visiting friends in East Branch.

The summer playground closed last Friday.

Miss Carol Slater entertained a party of friends Sunday night in honor of her birthday.

Mr. and Mrs. McCarvel are moving from Miller's house to an apartment in Wawarsing.

Miss Myrna Schoonmaker is visiting Carol Dickman in Brooklyn for a couple of weeks.

Paul Billings and family of New York recently called on Mr. and Mrs. DeWitt Stanton.

Mrs. Chernsey Slater is a patient at Vassar Hospital, Poughkeepsie.

Mr. and Mrs. William Amann entertained friends from upstate during the week-end.

Mrs. E. C. Schoonmaker has returned home after spending a week in Baltimore, Md.

Mrs. N. J. Cole and son, Norman, Jr., of West Hurley and a cousin of Poughkeepsie called on Miss Ida May Whitaker Tuesday afternoon.

Mrs. and Mrs. Claude Terwilliger entertained their cousins from Brooklyn last Friday.

Mrs. Taylor and son of Kingston spent a day this week with Mrs. Taylor's parents, Mr. and Mrs. Harry Cohen on Church street.

Mr. and Mrs. Warren Cairo entertained Mrs. Calvo's brother and sister-in-law and family of New York last week.

Mr. and Mrs. Orris Smith of Hobart were guests last week of Mr. Smith's brother and sister-in-law, Mr. and Mrs. Grover Smith.

Miss Elizabeth Joyce spent a few days recently with her grandparents in Ellenville.

Miss Beverly Simpson was honored at a birthday party August 12 given by her parents, Mr. and Mrs. Bert Simpson of Pataukunk. Games were played and refreshments served. Those attending were Mr. and Mrs. Arthur Marke and daughter, Helen; and son, Donald; Mrs. Hiram Brooks and daughter, Alice; Mrs. Daniel Sheely and daughters, Patricia and Valerie; Stewart Nelson, Philip Moore, David and Robert Demarest, Douglas Simonian, George Ketchum, Gene McDonald, S. Simkowksi, Ted Smith, Toni Antidorme, Beatrice Ellen and Clifford Booth, Alice Smith and Emma Simpson.

## SOCIAL ACTIVITIES

SOCIETIES • CLUBS • PERSONALS

### 'Miss Wendy of 1950' Chosen at Watershow

#### As Girls' Camp Ends Successful Season

Camp Wendy, Ulster county's Girl Scout camp on the shores of Lake Louise in Wallkill, has closed its 1950 season after a "most interesting and successful" final two-week camping period for 89 girls, scouts and nonscouts, the Girl Scout office announced.

The last two-week period was marked by "almost perfect camping weather," the announcement said, and the social events were climaxized by the choosing of Miss Wendy of 1950—Virginia Martin of Kingston.

Other events included:

The girls of the "Jungle" camping unit spent two days camping at Minnewaska, accompanied by their counselors, Myra Parker and Ceni Coford. Food, utensils and bed rolls were taken to the site by the camp car, and the girls hiked only part of the distance to and from the mountain.

Later the 10 and 11-year-old "Indians" moved out of their cabins to enjoy sleeping in tents for the first time.

Members of the "Pioneer" unit earned their pioneer badges by sleeping out on Romany Hill for two nights, cooking all their own meals. A further requirement was that they put up and take down a tent.

"Greenwood" spent one night on the lawn of the home of Harry Eckler in Wawarsing, and breakfast was cooked on his outdoor grill.

#### Name Deer Visits

One of the most popular, if unscheduled, visitors to the camp was Falene, a pet deer owned by a nearby family. The deer seemed "perfectly at home among the children," the announcement said.

The Camp Council, composed of girls from each unit, planned several activities including a watershow and an "international progressive supper and entertainment." At the water show, campers enacted nursery rhymes, and each unit presented a costumed candidate for the title of Miss Wendy. Virginia Martin, from "Tinkerbel" unit, dressed as Little Bo-Peep, was crowned.

During the "international supper" foods representing different nationalities were served as the girls went from unit to unit. Afterwards the campers gathered in the Little Theatre and each unit gave a short skit. Then the girls went to the lake with their "wishing boats" and as darkness fell, each unit, in a different location, sang an original "international wish."

Members of the camp council chosen by the girls were: from Tinabur, Susan Levitt, Ellenville, Janet Berger, Stone Ridge; from Indian, Grace Robertson of Poughkeepsie, and Joan Kaminsky of Newburgh; from Greenwood, Frances Harvey of Kingston and Libby Lee of Woodstock; from Pioneer, Beth Williams of Poughkeepsie and Katherine Williams of Kingston; from Jungle, Pat Mc-

Donald, and Mrs. G. Mills.

The picnic committee includes: The Rev. James Dunnigan, Mr. and Mrs. Francis Hartigan, Mr. and Mrs. P. Butler, Mr. and Mrs. D. Corbett, Margaret Carthy, Genevieve Young, Mrs. Francis Young, Mrs. Joseph Leahy, Mrs. L. Eulalio, Edward Leahy, Arthur Granquist, Jr., Cecilia J. Goldbaugh, Lawrence Shortell, Tom Roach, Mrs. Frank McSpirit and Mr. and Mrs. J. Traficandra.

Tiny cream puff shells are delicious with a cheese filling. Use a tangy yellow cheese for the filling and spike with Worcestershire sauce and onion salt.

## Three College Graduates

C. Lester Legg, Jr. (left) 227 Smith avenue, Robert J. Eagan (center) 60 East Chester street, and Donald Andrew Diamond of Port Ewen were among the 300 seniors who received diplomas this morning at the 86th commencement exercises of Rider College, Trenton, N. J. All three were in the college of business administration, majoring in accountancy. They received B.S. in commerce degrees.

### Married in New York

Mrs. Eli Morton Lippman is the former Judith Maralyn Siegel of New York, daughter of Samuel W. Siegel, 277 Albany avenue, Kingston, and Mrs. G. Mills. The wedding was held yesterday in the Ambassador Hotel in New York. The groom is a surgeon at the U. S. Marine Hospital on Staten Island. (Bradford Bachrach Photo)

### Judith M. Siegel Bride of Doctor

Mrs. Judith Maralyn Siegel, of New York, daughter of Samuel W. Siegel, 277 Albany avenue, and Mrs. G. Mills of New York, became the bride yesterday of Dr. Eli Morton Lippman in a ceremony at the Ambassador Hotel.

The groom, an orthopedic surgeon at the U. S. Marine Hospital on Staten Island, is the son of Dr. and Mrs. William Edward Lippman of Brooklyn.

Given in marriage by her father, the bride wore a gown of lace and tulle and carried orchids on a prayer book. Maid of honor was Miss Vivian Siegel of New York, who wore pink and green tulle and carried a cascade of roses.

Michael Sorock was the best man.

After a reception in the Truman Room of the Ambassador Hotel, the couple left for a wedding trip which will include a cruise of the Caribbean. They will live at 25 Fairway avenue, Staten Island.

The bride was graduated from Cazenovia Union College and Syracuse University. The groom was graduated from Johns Hopkins University and the Long Island College of Medicine. He served as a major in the Army Medical Corps in the Pacific for three and a half years.

One-third of the population of the United States is transported on street cars every day.

### Greer-Kilmer Troth Announced

(Pennington Studio)

#### NANCY ANN KILMER

Mr. and Mrs. William Kilmer of 63 Ponckhockie street announced the engagement of their daughter, Nancy Ann Kilmer, to Electrician's Mate 2/c Philip Greer of the U. S. Navy.

Mr. Greer is the son of Mrs. Marilyn Malnes, Rose Nardi, Theresa De Luca, Maureen Rice, Carol France, Vera Tobias, Hazel Tobias, Gertrude Mellon, Clara Carpin, Beverly McElsworth and Elaine Markantes.

Michael Sorock was the best man.

After a reception in the Truman Room of the Ambassador Hotel, the couple left for a wedding trip which will include a cruise of the Caribbean. They will live at 25 Fairway avenue, Staten Island.

The bride was graduated from Cazenovia Union College and Syracuse University. The groom was graduated from Johns Hopkins University and the Long Island College of Medicine. He served as a major in the Army Medical Corps in the Pacific for three and a half years.

Send THIRTY CENTS in coins now for your copy. Illustrations of designs for crocheting, knitting, embroidery, cuddle toys, household and personal accessories. Free needlework pattern printed in book.

New season styles for you to sew! Send Twenty Cents for our Marian Martin Fall and Winter Pattern Book. Fashions for the young and young in heart plus Christmas ideas galore! A free pattern of a blouse to make from a yard of 39-inch fabric is printed in the book.

## Whirl Differently

In the Northern Hemisphere, cyclones whirl in circles counter-clockwise, while in the Southern Hemisphere they whirl clockwise.

Nearly 15,000 persons visit Idaho's state historical museum every year.

## SHOKAN

Shokan, Aug. 17 (AP)—Mr. and Mrs. Herbert Ficke, Bronx couple who resided at the J. W. Jones farmhouse several years ago, motored here Tuesday and spent the night at the Mrs. Harry Weeks boarding house. The Fickes report that their elder son, Charles, who enlisted in the navy two years ago, is now a signalman on the battleship Missouri.

Three American soldiers who survived the mass execution identified two Red prisoners as having been among the group that bound and executed 32 American mortar men.

They tentatively identified a third Red captive as having been in on the slaughter.

Army officials said the accused slayers would be tried as war criminals.

Beatrice Tuckling returned to her home in Old Hurley Monday following a visit of several days at the home of her friends and former near neighbors, Mr. and Mrs. Murray Slavin of the mountain road.

Abram Chason of New York spent the week-end with his sister, Mrs. Emerich Lukacs of Camp Temerada. Abe is an engineer with Western Electric.

Add successful juvenile fisherman: Little Brenda Mason, 4, of Walden decided to put her expensive (?) equipment to good use, so went down to the creek, toted her cut pole and wrapping string line; she used a worm for bait and in a jiffy yanked out a nice 11-inch bass. Smart gal.

Mr. and Mrs. Edward Terhune and children, regular summer visitors to Shokan, are again at the Petro Mastrotto cottage on the trail.

Evelyn Volland of New York is spending a few days with her mother, Mr. John Volland, and brother, John Jr.

Arthur Carter, an old timer in this part of the mountains, will be having another birthday Saturday. He was born at Walden and before coming to Shokan resided at Mt. Tremper while employed on the U. & D. railroad. He has been superintendent at the Tonche Mountain place of Geo. W. Pratt of Highland for the past several years. Arthur married Edith Bogart of Coons district and they have a daughter, Mrs. James Bush, and two grandchildren.

The Olive firmen's two day fair and festival, with an extra day added because of rain, the second evening, was largely attended according to some of the many local people who took in this year's annual event in Tongore. (Visitors, by the way, are making highly

## Bodies of 36 Soldiers Found on Battlefield

U. S. First Cavalry, Korea, Aug. 18 (AP)—Bodies of 36 American soldier victims of Red battlefield torture killings were recovered today from bloody Hill 303. Their hands and feet were bound with rope, wire and shoestrings.

Three American soldiers who survived the mass execution identified two Red prisoners as having been among the group that bound and executed 32 American mortar men.

They tentatively identified a third Red captive as having been in on the slaughter.

Army officials said the accused slayers would be tried as war criminals.

## Cruise Vessel Is Towed Up River; Victims Sought

Tadoussac, Quebec, Aug. 18 (AP)—The burned-out cruise ship, second Canada Steamship Lines cruise vessel swept by fire in less than a year, was being taken by tug to Lauzon, opposite Quebec

city. A formal investigation into the circumstances of the blaze in mid-stream is to be made. Canadian Transport Minister Lionel Chevrier said in Ottawa,

two victims found were believed to be Dr. and Mrs. Pickens Smith of Clemson, S. C. A line official said about 90 per cent of the Quebec's 450 passengers have been accounted for directly. He explained that many passengers disembarked without reporting to the steamship company.

## Lost Year

Calendar makers disregarded the zero year and passed from 1 B. C. to 1 A. D. so there have been only 1949 years since 1 B. C. rather than 1950.

# How Hole-in-One Layout Will Look to Golfers at Wiltwyck Sunday

135 YARDS

The 135-yard drop shot will be the scene of the Freeman's second annual hole-in-one contest, Sunday at Wiltwyck Golf Club.

At least 200 entries are expected to compete for first place prizes.

The scene of the contest is a specially constructed hole from the ridge separating the No. 9 and No. 3 fairways to the No. 9 green.

The following is the schedule

for the 9, 10 and 11 a. m. squads. (Deletions or additions to these squads will be announced in Saturday's edition.) Later squads will be published tomorrow.

At 11 a. m. all players who have a hole-in-one to their credit will participate on the "honor" squad. Approximately 25 acres from Kingston and Ulster county will show their wares.

## Twi All Stars Will Pitch Searfoss or Bill Ostrom Against House of David

### League Hurlers Are Involved in Crucial Games

#### Expect Big Crowd For Bearded Beauty Tilt

Because of the heavy drain on local pitching talent created by the City League race, the league All Stars will be forced to bring in an outside pitcher for Saturday's contest with the House of David nine. Manager Joe Hoffman announced today.

The twi skipper said it would be either Al Searfoss, crack-southpaw who serves as physical director at Saugerties High, or the fabulous Billy "The Kid" Ostrom of Poughkeepsie.

"We'll have one or the other to pitch against the Bearded Beauties," Hoffman said.

Locals Not Available

The All Star manager pointed

Good Time Boosts Earnings to \$138,949

Yonkers, N. Y., Aug. 18 (AP) — Good Time, which has earned more money than any other pacer in history, banked another \$11,250 for owner William H. Caine—but it took a world record performance to do it.

The four-year-old speedster, harness horse of the year in 1949, cruised around Yonkers' half-mile oval three times last night in 3:08 flat to win the \$25,000 Yonkers Derby.

That was exactly one second better than the record time for a mile and a half distance on a half-mile track set by Jimmy Creed in 1944 at Roosevelt Raceway, Westbury, N. Y.

Good Time's earnings now are \$138,949 — pretty good for a youngster of four.

## Boulevards Edge Bowldrome, 7 to 6, Twi Loop

### Tierney Yields Only Four Hits; Watzka Loser

#### Uncared Tally For Both Teams

Boulevard Gulf choked off a seventh inning threat by the Bowldrome to win yesterday's City League feature, 7 to 6.

The victory virtually assured Manager Danny Perlmuter's crew of a spot in the Shaughnessy playoffs.

Jones Dairy, needing two victories to tie with Chez Emile in the regular league standings, makes its bid against Old Capital Motors today. Tommy Fisher and Ernie McCormick have been announced as the starting pitchers.

#### Tierney Excels

Yesterday's contest shouldn't have been as close as the score indicates. Bill Tierney pitched an excellent four-hitter but three untimely errors accounted for five uncared markers for the Bowldrome.

Alan Vogt, with double and two singles, that accounted for three RBIs, led the eight-hit Boulevard attack on Jackie Watzka, who wasn't as sharp as in recent outings. Six Bowldrome miscues weren't calculated to make his tenure any easier.

Tierney scattered his four hits among four different players, walked five and struck out three.

#### The Boxscore:

#### Bowldrome (6)

	AB	R	H	PO	A	E

### Dodgers' Palica Gets Draft Call

New York, Aug. 18 (AP) — Erv Palica's 5-1 pitching victory over the New York Giants yesterday may have been his last appearance for Brooklyn for a while.

When the 22-year-old Dodger righthander returned to the Polo Grounds clubhouse he found Uncle Sam's draft notice waiting for him. The Lomita, Calif., pitcher was married only last week.

#### Uncared Tally

The Bowldrome scored three in the top of the third when walks to Flore and J. Ferraro and a hit batsman loaded the sacks with two out. Dick Dulin fanned on a 3-2 count but the ball sailed through catcher Larsen. By the time he recovered and tossed the ball back to Alan Vogt, who dropped it, three runs clattered across the plate.

#### Yesterdays

In the bottom of the third when Vogt, 1b, got out of a bases-loaded jam.

Flores, rf, and Vogt, 1b, got out of a bases-loaded jam.

When he wiped his brow—deadpan—after birdieing the 18th hole he acknowledged under prodding that the rough Mount Pleasant course "impressed me right much today."

And well it might, for Haefner:

1. Broke the course record set in 1938 by Cliff Spencer of Elizabeth City, N. C., by two strokes, and

2. Put his considerable bulk in the lead by four strokes over his nearest foes, Fred Haas, Jr., of Claremont, Calif.; Earl Stewart, Jr., of Dallas, Tex.; Buck White of Ormond Beach, Fla.; John Palmer of Badin, N. C., and Walter Ronans of Baltimore.

The two former National Open champs, Lloyd Mangrum of Niles, Ill., and Cary Middlecoff, the Ormond Beach, Calif., dentist, came up with 71 and 72, respectively.

Among those pushed at 70 were Pete Cooper of Fonte Verde, Fla., and Marty Furgol of New York Mills, N. Y.

#### The Raisner Race

The American Legion trophy race has been conducted every year since 1936 when Urho Wainles, of Binnewater, won the event. In 1937 John Vaughn, of Rosendale, took the trophy only to lose it the following year to Walter Himmelberg, of Tillson.

Himmelberg held the title for three years but in 1941 Joseph Heidcamp, of Kingston, was victorious and successfully defended his title the following year. For the next three years the trophy changed hands each year going to John Daley in 1942, 1944, and 1946; and Betty was the champion in 1945 and 1948. Betty will be swimming this year and is favored to win although there are several girls who may give her a lot of trouble and prove to be dark horses.

The chikarsh, an antelope found in India and Tibet, has four horns instead of the conventional two.

Worry not, sell us instead!

### Hopman-Greenberg Threaten Doubles

Brookline, Mass., Aug. 18 (AP) — The sparkling play of 44-year-old Harry Hopman of Australia, and Chicago veteran Seymour Greenberg stood out today as the National Doubles tennis tournament moved into the semi-final round at Longwood.

Hopman, the non-playing captain of the Aussie Davis Cup team, and Greenberg, the National Public Court title eleven years ago, joined forces only five days ago, but promise to give U.S. Davis Cupsters Gardner Mulloy of Miami, and Bill Talbert, of New York, a stiff battle in their second round meeting tomorrow.

The Hopman-Greenberg combine refused to wilt under a blistering sun and subdued Marvyn Rose, 20, and George Worthington, 21, of Australia, by 7-9, 15-13, 2-6, 6-3, 6-4 margins in a three-hour quarter-final match yesterday.

In their half, the Gulfmen fought off a four times with two out. Crosby singled, Scheffel walked, Vogt, Perlmuter and Schoenmaker singled and Fondino contributed a miscue.

In their half, the Gulfmen fought off a four times with two out. Crosby singled, Scheffel walked, Vogt, Perlmuter and Schoenmaker singled and Fondino contributed a miscue.

#### Yesterday's Stars

By The Associated Press

BATTING—Gil Coan, Senators Beat Yankees with two-run triple in eighth inning, 2-1.

PITCHING—Steve Gromek, Indians—Held St. Louis to one hit in six relief innings as Cleveland took 5-4 game in 12th.

#### Coast Handicapper Picks Eight Straight

Del Mar, Calif., Aug. 18 (AP) —

Paul Lowry, handicapper for the Los Angeles Times and the Associated Press, has achieved the dream of all handicappers.

He picked eight straight winners on the eight-race card at the Del Mar track yesterday.

Only once before since racing was legalized in 1933 has a handicapper swept the program. Lowry had, in order, Short Thorn at 20, 1937, Madame Fury at \$6.60, Your Came at \$3.50, Compatto at \$7.40, Cubito at \$6.80, King Rymer at \$3.80, Hidden Moon at \$8.50.

**Ewing Gains Favor****Guardsmen to Get Lessons From Korea**

night that he had asked Hanley to step aside and urge Dewey to seek reelection. Pfeiffer termed "preposterous" a published report to that effect, and Hanley told Albany reporters he was "not even thinking about" withdrawing.

Ewing, federal security administrator and leading exponent of a national health plan, was proposed for the Democratic nomination yesterday by Edward J. Flynn, a national committeeman and Bronx leader with a strong voice in the party's state affairs.

Ewing remained non-committal. His name had dropped somewhat from the limelight after Congress refused to give him a cabinet post as part of the Truman administration's proposed health set-up.

**Target for Charges**

As a gubernatorial candidate, Ewing would be a target for G.O.P. charges that the program represented "socialized medicine."

Flynn told reporters Ewing was his choice as party leaders met in New York and chose Mayor Erastus Corning of Albany as permanent chairman of the state convention. The convention, Sept. 6 and 7 in Rochester, will name the ticket for November.

Hanley has the pledged support of most ranking Republicans for nomination at the Republican convention September 6 and 7 in Saratoga Springs.

The 74-year-old lieutenant governor asserted yesterday, "Nobody has asked me to withdraw my name and it will go before the convention subject to the action of the delegates."

**Follow Conference**

Hanley's comments followed a conference with Pfeiffer. Both insisted that nothing had been said about Hanley's withdrawing. They discussed the party's ticket, they said. The "draft Dewey" talk was mentioned, but such talk is "nothing new," Hanley said.

Livingston Platt, Westchester county G.O.P. chairman, also talked with Pfeiffer and Hanley yesterday.

Platt said he saw Pfeiffer while inspecting Republican headquarters and upon hearing that Hanley was in town called on him to pay his respects.

Asked if there was any discussion of Hanley withdrawing and drafting Dewey, Platt declined to comment.

In New York, a "draft Dewey" committee of 40 was organized. Named chairman was Newbold Morris, Republican-Liberal City Fusion candidate for mayor last November.

Dewey, who announced June 17 he would not run for a third term, has said repeatedly that his decision stands.

**It's U.N. Moving Day**

New York, Aug. 18 (AP)—Today is moving day for the United Nations secretariat. A mass migration from Lake Success on Long Island to the U.N.'s permanent skyscraper headquarters in Manhattan on the East river will begin at 4 p. m. (EST). Transportation of furniture and records from the U.N.'s temporary headquarters in the Sperry Gyroscope Co. plant will continue through the week-end. By Monday morning, 400 U.N. employees will be at work in the new building here. They will be a vanguard of about 3,000.

**Man Found Injured**

Port Jervis, N. Y., Aug. 18 (AP)—Dazed and injured, Henry Rosenblum, 39, of the Bronx, was found wandering along Route 97 five miles north of here last night. State police said today. Brought to a hospital here, Rosenblum told police he had been involved in an automobile accident. Police, who checked the highway area, said they had found no signs of an accident. Rosenblum was reported suffering from severe lacerations of the head and body.

**Panic Seizes Taegu**

New York, Aug. 18 (AP)—National Guardsmen in the New York area leave tomorrow for two weeks of combat training with the 42nd (Rainbow) Infantry Division at Pine Camp, N. Y.

Maj. Gen. Brendan A. Burns, division commander, said today that lessons learned in the Korean fighting will be passed on to the men. If a call to federal service comes, he added, "we want to give the country a division in fighting trim."

The training period will end Sept. 2 with a review before high-ranking army officers.

The Rainbow Division is composed of men from the New York metropolitan area.

**Target for Charges**

As a gubernatorial candidate, Ewing would be a target for G.O.P. charges that the program represented "socialized medicine."

Flynn told reporters Ewing was his choice as party leaders met in New York and chose Mayor Erastus Corning of Albany as permanent chairman of the state convention. The convention, Sept. 6 and 7 in Rochester, will name the ticket for November.

Hanley has the pledged support of most ranking Republicans for nomination at the Republican convention September 6 and 7 in Saratoga Springs.

The 74-year-old lieutenant governor asserted yesterday, "Nobody has asked me to withdraw my name and it will go before the convention subject to the action of the delegates."

**Follow Conference**

Hanley's comments followed a conference with Pfeiffer. Both insisted that nothing had been said about Hanley's withdrawing. They discussed the party's ticket, they said. The "draft Dewey" talk was mentioned, but such talk is "nothing new," Hanley said.

Livingston Platt, Westchester county G.O.P. chairman, also talked with Pfeiffer and Hanley yesterday.

Platt said he saw Pfeiffer while inspecting Republican headquarters and upon hearing that Hanley was in town called on him to pay his respects.

Asked if there was any discussion of Hanley withdrawing and drafting Dewey, Platt declined to comment.

In New York, a "draft Dewey" committee of 40 was organized. Named chairman was Newbold Morris, Republican-Liberal City Fusion candidate for mayor last November.

Dewey, who announced June 17 he would not run for a third term, has said repeatedly that his decision stands.

**It's U.N. Moving Day**

New York, Aug. 18 (AP)—Today is moving day for the United Nations secretariat. A mass migration from Lake Success on Long Island to the U.N.'s permanent skyscraper headquarters in Manhattan on the East river will begin at 4 p. m. (EST). Transportation of furniture and records from the U.N.'s temporary headquarters in the Sperry Gyroscope Co. plant will continue through the week-end. By Monday morning, 400 U.N. employees will be at work in the new building here. They will be a vanguard of about 3,000.

**Man Found Injured**

Port Jervis, N. Y., Aug. 18 (AP)—Dazed and injured, Henry Rosenblum, 39, of the Bronx, was found wandering along Route 97 five miles north of here last night. State police said today. Brought to a hospital here, Rosenblum told police he had been involved in an automobile accident. Police, who checked the highway area, said they had found no signs of an accident. Rosenblum was reported suffering from severe lacerations of the head and body.

**Panic Seizes Taegu**

New York, Aug. 18 (AP)—National Guardsmen in the New York area leave tomorrow for two weeks of combat training with the 42nd (Rainbow) Infantry Division at Pine Camp, N. Y.

Maj. Gen. Brendan A. Burns, division commander, said today that lessons learned in the Korean fighting will be passed on to the men. If a call to federal service comes, he added, "we want to give the country a division in fighting trim."

The training period will end Sept. 2 with a review before high-ranking army officers.

The Rainbow Division is composed of men from the New York metropolitan area.

**Target for Charges**

As a gubernatorial candidate, Ewing would be a target for G.O.P. charges that the program represented "socialized medicine."

Flynn told reporters Ewing was his choice as party leaders met in New York and chose Mayor Erastus Corning of Albany as permanent chairman of the state convention. The convention, Sept. 6 and 7 in Rochester, will name the ticket for November.

Hanley has the pledged support of most ranking Republicans for nomination at the Republican convention September 6 and 7 in Saratoga Springs.

The 74-year-old lieutenant governor asserted yesterday, "Nobody has asked me to withdraw my name and it will go before the convention subject to the action of the delegates."

**Follow Conference**

Hanley's comments followed a conference with Pfeiffer. Both insisted that nothing had been said about Hanley's withdrawing. They discussed the party's ticket, they said. The "draft Dewey" talk was mentioned, but such talk is "nothing new," Hanley said.

Livingston Platt, Westchester county G.O.P. chairman, also talked with Pfeiffer and Hanley yesterday.

Platt said he saw Pfeiffer while inspecting Republican headquarters and upon hearing that Hanley was in town called on him to pay his respects.

Asked if there was any discussion of Hanley withdrawing and drafting Dewey, Platt declined to comment.

## Best Huck-Towel Exhibit at Fair

A display of huck-towel bags won the blue ribbon for best Home Bureau unit exhibit for the Plank Road unit at the Ulster County Fair which ended Thursday. Seated in the booth, left to right, are Mrs. C. V. Gunther, teacher; Mrs. Leland Boice, committee member; and Mrs. Raymond Trumpp, unit chairman. (Freeman Photo)

## Some of Fair Horse Show Winners

Champion horses and a pony are shown in the top photo with their owners. From left are Silver with James McCabe, owner; Arab and Virgil Van Wagenen, Woodstock; and Oklahoma Duke with Cliff Anderson, Kingston.

In the lower photo, youngsters ride their entries in the novelty class ring. (Freeman Photos)

Educational Program  
Canceled by Commies

New York, Aug. 18 (AP)—The national committee of the U. S. Communist Party—put "on the spot" by the conviction of the party's eleven top leaders—has suddenly canceled all educational instructions to members.

"All outlines or educational directives" issued by the committee

or subordinate bodies were withdrawn yesterday.

The announcement said the action was taken in view of the decision of the Second U. S. Circuit Court of Appeals upholding the conviction of the eleven party leaders.

They were sentenced to prison terms and fines on conviction of conspiracy to advocate violent overthrow of the government.

The government has used many of the directives to support its charges that the Communists teach force and violence.

Withdrawal of the instructions presumably was an effort to prevent their use by the government in any future prosecution or in any move to outlaw the party.

**Makeup Is Changed**

Auckland, New Zealand, Aug. 18 (AP)—New Zealand's 36-year-old legislative council changes its makeup at the end of the year.

The council today passed a bill substituting a single chamber system for the present two-house body.

Stone Ridge Man  
Faces Drunk Driving

Stanley Christiana, 40, of Stone Ridge, was arrested yesterday afternoon on charge of driving while intoxicated, following an accident on Broadway near the Broadway Theatre.

Attorney Chris J. Flanagan appeared for the defendant before Special City Judge Harry Gold today and the case was put over to August 31. Bail, fixed yesterday at \$500, was reduced to \$250.

The report of officer James Burns yesterday said the Christiana sedan was in collision with a car owned and operated by William Hoffman, R.D. Kingston. The latter car was damaged in the rear, the report said.

Your Taxes, Who Pays  
And Where Money Goes

Albany, N. Y., Aug. 18 (AP)—The state of New York collects more than \$800,000,000-a-year in taxes and uses two budgets to spend it.

One budget is for state purposes—the money spent to run the state government itself.

The other budget covers allotments to local governments—counties, cities, towns, villages and school districts.

The state sends more money back to the localities than it spends on itself but it isn't a Santa Claus. New York income comes from taxpayers like you. It wouldn't have to collect so much if it didn't "give away" so much.

Governor Dewey thinks cities and school districts should levy and collect more of their income directly, instead of paying the state to do it.

Of the current state budget, about 59.3 per cent will go to local governments and 40.7 per cent will be used to operate the state government.

Technically, the state has only one budget, but it has two distinct sections, one for state purposes and the other for assistance.

The state budget, spurred in part by inflation, has nearly doubled in the last six years.

It jumped from \$468,000,000 in 1944-45 to \$867,000,000 for 1950-51. It was a record \$939,000,000 last year.

In the current budget, state purposes appropriations total \$535,956,000 and local assistance amounts to \$513,877,000.

This compares with \$256,160,000 for state purposes and \$211,467,000 for local assistance in 1944-45.

Despite the enormous increase in state aid to localities, the money never has caught up with the demand. Cities and local governments always clamor for more. They obviously prefer to pass the buck and let someone else levy the taxes.

What is the state purposes money used for?

It's the state's housekeeping fund.

It's used to pay salaries—there now are 76,000 fulltime state employees.

It's used to operate all the various state departments—mental hygiene, social welfare, health, public works, education, state police, public service, law, banking, insurance, commerce etc.

Mental hygiene now gets the biggest chunk—\$104,800,000.

The local assistance?

It includes outright general grants to local governments amounting to \$53,000,000 this year.

It also provides state aid for common schools \$232,000,000 compared with \$108,200,000 six years ago.

It includes \$131,500,000 for public assistance—the state's 80 per cent share of the cost of home relief and nearly that much toward aid for dependent children, the blind and the aged.

It includes aid to localities for health programs, public housing subsidies, county reforestation, county and town highways and programs to combat juvenile delinquency.

A drastic change was made in 1946 in the method of funneling

back tax money to local governments. Until then, most state-collected tax revenue was shared—that is the state and locality divided tax money actually collected in your home county. In 1946, the shared tax system was largely abandoned in favor of distribution based on population.

Gasoline and motor vehicle tax money still is "shared" but most

revenue is distributed on a population basis.

By the population plan, cities get \$6.75 per unit of population, towns \$3.55 and villages \$3.00. This is known as general local assistance.

Besides this, localities get additional payments for education, public assistance, health programs and other governmental services.

## It will Pay You to Wait for a

HERE'S WHY: (1) The new John Deere Model "M" is regularly equipped with Touch-a-matic precision-type hydraulic power control—the new, quick, positive means of raising, lowering, or regulating the working depth of integral equipment from the tractor seat.

(2) It has a complete line of Quik-Tatch working equipment designed especially for it. They're really "partners in profit".

(3) It offers real operator's comfort never before approached by a tractor of its class.

(4) It's built for a wide variety of jobs. The "M" is regularly equipped with four forward speeds with a new low of 1-5.6 M.P.H. and a new high of 12 M.P.H.

Remember—it will pay you to wait for a John Deere Model "M". Stop by and get complete details from us the next time you're in town.
